CHECKLIST

Bed Under Window Setup Checklist

- [ ] Measure wall width and bed frame to confirm radiator clearance
- [ ] Fit curtains or blinds before positioning the bed
- [ ] Centre the bed under the window or balance an offset with a tall object
- [ ] Fix the headboard to the frame, not the wall
- [ ] Leave a narrow gap between bed and wall for air circulation
- [ ] Add wall-mounted shelves or low bedside tables at mattress height
- [ ] Test window operation and curtain clearance before finishing
- [ ] Wipe the sill each morning if condensation appears
