

CHECKLIST

Choosing paint for a north-facing room

- ☐ Buy sample pots of warm neutrals, warm whites and soft yellows
- ☐ Paint large squares on the wall that receives the least light
- ☐ Check samples in morning, afternoon and evening light over several days
- ☐ Hold paint chips next to pure white to see which way the undertone leans
- ☐ Choose a soft sheen or eggshell finish to reflect light
- ☐ Paint woodwork and ceilings in warm tones to keep the room cohesive
- ☐ Add textiles and furnishings in warm colours to support the wall colour
- ☐ Use warm-white bulbs rather than cool daylight bulbs
