CHECKLIST

Feature wall planning checklist

- [ ] Stand at the room's entrance and identify which wall you face or see first
- [ ] Check that the wall is unbroken by multiple doors or windows
- [ ] Measure furniture heights to ensure the treatment will remain visible
- [ ] Test paint colours or wallpaper samples in place for several days
- [ ] Prepare the wall surface by filling cracks and sanding rough patches
- [ ] Ensure the feature wall colour or pattern relates to existing tones in the room
- [ ] Keep other walls and furnishings simple to let the feature wall stand out
- [ ] Consider material suitability for the room, particularly in kitchens and bathrooms
