CHECKLIST

Choosing Between Laminate and Vinyl: Decision Points

- [ ] Identify rooms that see regular water and mark them for vinyl
- [ ] Walk on samples of both to compare sound and feel
- [ ] Check wear-layer thickness on every product shortlist
- [ ] Measure foot traffic in each room and choose core thickness accordingly
- [ ] Confirm expansion gaps are included in your layout plan
- [ ] Match floor rigidity to whether the room feels cold or echoey
- [ ] Factor in how often spills happen before choosing laminate
